

The End Point

To create a lepidoptery mood board using drawing skills

Focus Inspiration

Lepidopterist: Margaret Fountaine

What should I already know?

- To demonstrate awareness of the direction of light in drawings through shading.
- Produce increasingly accurate drawings of faces.
- Observe and draw anatomy.
- Use scale and perspective

Powerful Knowledge

- Produce detailed drawings from observations and photographs.
- Display an awareness of objects having three dimensions when drawing.
- Look at the effect of light on objects from different directions.

Vocabulary

Observational art	To draw or paint a subject as accurately as possible.
light	The light source or light reflected within the art work.
shading	The lines and marks used in drawing or painting to show the different patterns in colour and dark.
two-dimensional	Any art work that is flat.
three-dimensional	With the dimensions of height, width and depth.
mood board	A collection of visual materials that show a certain style or concept.

Lepidoptery mood boards
