

# Year 1 Spring 1 - Computing – Digital Imagery

## Big Question

What are three top tips to taking great pictures?

### Key Vocabulary for the unit:

**Crop:** When you change the height or width of an image.

**Delete:** To remove from a computer, text or files such as images.

**Download:** To save a file from the internet or another computer.

**Drag and drop:** When you move and place text or a file on the computer.

**Editing software:** Any software program that lets you change an image or video in any way.

**Import (software):** To place another file into a document, such as an image.

**Resize:** To change the height or width of an object.

**Save as:** Lets you name and store a file on a computer.

**Search engine:** A website that lets you search for information on the internet.

**Smart device:** An electronic device, connected to other devices or on the internet.

### Powerful knowledge/skills for this unit:

- ◆ To understand that holding the camera or device still and considering angles and light are important to take good pictures.
- ◆ To know that you can edit, crop and filter photographs.
- ◆ To know how to search safely for images online.

### What I should already know from EYFS:

- ◆ I can operate a camera to take photographs of meaningful creations or moments.
- ◆ I can explore and tinker with hardware to develop familiarity and introduce relevant vocabulary.

 Tell an adult if you see something online that makes you feel unhappy.

### Useful diagrams for the unit:

An example of a sequence: egg-hatching

Different types of camera:

When taking photographs, remember to:
