

Does your child need extra support to access an activity group?

If your child has additional needs or is disabled and would like to access a universal activity group, we can help.

- Our Sessional Inclusion Workers can support your child to be included when they attend the activity group.
- The Sessional Inclusion Workers will support the activity group to get to know your child and meet their needs by ...
 - Meeting the child at the activity group
 - Attending limited activity sessions with the aim of enabling the child to attend independently after their bridging support.
- We'll meet with the activity group provider and help them follow best practice in every aspect of their service through our Scope Inclusive Activity Award.
- We'll provide free training and resources for the activity group staff and ongoing support.
- To find out email us at Leeds@scope.org.uk
- To apply for a Sessional Inclusion Worker, **Scan & follow the QR code below:**
