Summer 1 – Year 5 – Volleyball (Net and Wall)

Knowledge Organiser Volleyball Year 5

About this Unit

Volleyball is a net and wall game. The aim of the game is to hit the ball over the net landing into the court area on your opponent's side.

Volleyball was invented by William G. Morgan in 1895, and took inspiration from other sports such as badminton and tennis, but it did not become an Olympic sport until 1964.

A single player may jump as many as 300 times in a volleyball match. The record for most consecutive passes in volleyball is 110, achieved in the United States, on February 5, 2010.
